**ReachLog** | *C#, TypeScript / .NET, Angular, PostgreSQL, Docker* **April 2026 - Present**

- Job outreach tracker with skill gap analytics, multi-platform scraper for internships, Chrome extension for LinkedIn outreach automation and email parser for tracking applications.

**AI-Detective(DragonHack)** | *Python, Javascript / React, FastAPI, Gemini API, DepthAI* **April 2026**

- Crime scene analysis assistant using OAK-D camera for spatial scanning with depth data, AI-driven questioning for probability analysis and frame annotation system for evidence documentation.

## ORGANIZATIONS

---

**Student Council** **Oct. 2025 – Present**  
*University of Primorska* *Koper, Slovenia*

- Represent Computer Science students in the faculty council, contributing to academic discussions, committees and improvement initiatives.

**Student Tutor** **Oct. 2025 – Present**  
*University of Primorska* *Koper, Slovenia*

- Support students by clarifying course material, answering questions, problem solving support, and study strategy advice.

**Macedonian Student Organization in Slovenia** **Jan. 2025 – Present**

- Contribute to student networking and cultural exchange activities by assisting with event coordination and promotion.

## SKILLS

---

**Technical Skills:** Python, Java, C#, C++, JavaScript, TypeScript, SQL, React, Next.js, Node.js, .NET, Git, Docker, Unity, TailwindCSS

**Soft Skills:** Teamwork, Leadership, Attention to Detail, Adaptability, Problem Solving, Customer Service, Team Coordination

## AI SKILLS

---

**AI Assisted Development:** Use Claude Code to automate code review, debugging and test case generation with minimal manual effort and increasing speed by 40%

**LLM Integration & Workflow Automation:** Built and deployed automation workflows using Claude API and GitHub Actions, managing 60+ social media posts per month and supporting IAESTE email campaigns with minimal manual input.

**Prompt Engineering:** Design optimized prompts for Claude and OpenAI APIs, trained in advanced prompt engineering at Celtra AI Workshop (DragonHack 2026)

### Certifications & Training

*Advanced Prompt Engineering Workshop*  
*Claude Code Development Workflow*

*Celtra AI Lead, DragonHack Ljubljana 2026*  
*Nick Saraev, John Kim (YouTube Series)*
